InteracTable

What do your visitors do while waiting at the lobby? Are they scrolling through their phone or thumbing through an old magazine? This waiting time is an opportunity for your visitor to learn about you and your product.

The lobby design (also described as a "coffee table") is simple, and easy for anyone to approach. Combining the Lobby InteracTable with an interactive presentation provides a way to share information about your company's unique message, product line up, and history.

Paired with Lima, the Lobby InteracTable allows you to swipe up content to your video wall seamlessly.

Touchtech Lima

Lima is the perfect complement to any touch screen and is a particularly great fit for the InteracTable.

Lima allows you to quickly organize a wide range of file types (images, videos, web shortcuts, etc.) and resize them, annotate on them, or swipe them from your main surface to a 2 x 2 video wall.

Lima is a powerful presentation tool but is also a great complement to retail settings, lobbies, museums and other public spaces.
