Panoramic LCD

Power Over Ethernet Display

GPO Display's Panoramic LCDs have long brought critical, detailed information to areas where standard 16:9 screens don't fit. However, there are rarely AC outlets above or alongside doorways. Power Over Ethernet stretch displays solve this issue via structured cabling instead of costly & inconvenient new AC outlet(s).

Highlights

POE48D

No need for a separate POE splitter.

Includes wall mount and trim (Top, Left, Right, Bottom).

Ability to toggle the display area using a hotkey on remote.

No AC outlet required.

DisplayPort output for duplicating images.
